

# THE POST.

MIDDLEBURG.....JULY 21, 1870

## TOWN AND COUNTRY.

**THE European war has advanced the price of gold in New York to \$225.**

**JUNE, just passed, was the hottest June month experienced in a great many years.**

**SUICIDE.—Jacob Saul, a resident of Washingtonville, Montour Co., aged about fifty years, hanged himself to the ceiling of his bed-room on Sunday morning last. Becoming disgusted with his family relations, consisting of a wife and several children, and dissatisfied with his income, (from the Overseers of the Poor), he resolved like Saul of old to shuffle off this mortal coil; and while his better half was absent at church he made his exit. On her return she found him both body and animation suspended, but her means of support not taken away.—*Meltonian.***

**ONE HUNDRED MEN, to whom good wages will be paid, are wanted to work on the Sunbury and Lewisburg Railroad. Apply to any of the subcontractors on the road.**

**WE understand that the collectors of State and County taxes in this country have been notified by the Commissioners to pay into the treasury the amount of their duplicates on or before the first of August next.**

**LAST Wednesday afternoon, Charles Ray, a young man working in Clemont's planing mill, in Sunbury, had the four fingers of his left hand completely cut off by coming in contact with one of the saws.**

**THE REPUBLICAN STANDING COMMITTEE OF Snyder County is called on to meet in the Court House on Saturday, August 6th. A full attendance is requested as business of importance will be transacted. See call in another column.**

**MESSRS. Moyer & Bowes, of the Keystone Saw and Planing Mill, in Selinsgrove, are prepared to furnish, at the lowest market rates all sizes of doors, shingles, blinds, frames, mouldings, floorboards, &c., &c., at the shortest notice.**

**A \$20 dollar counterfeit on the National Bank of Commerce of New York city is in circulation. The execution of the work on the bill is excellent. The shading on the words, "The National Bank of Commerce," is darker and coarser than on the genuine.**

**THE prospect looks bright just now for our farmers. The war in Europe must greatly increase the demand for breadstuffs, and the customary supply from Russia threatens to be considerably curtailed by short wheat crops in many of the districts.**

**"A large number of laborers are idle in this city just now."—Philadelphia Press.**

**Send them to this county. They can get enough work to do on the S. & L. R. R.**

**THE assistant marshals are progressing quite actively in the work of taking the census of the different boroughs and townships in this county. They now experience but little difficulty in obtaining the required information sought. This greatly facilitates them in the arduous labors they have to perform, and will make the statistics accurate and reliable.**

**H. B. HARRICK, of Monroe township, is recommended through the columns of the Times, as a suitable person to represent the Democracy of this county in the Legislature.**

**William Glass, of Freeburg, makes the announcement, in the same paper, that he will be a candidate for the nomination of Jury Commissioner.**

**WE understand that there are five colored voters in this county and that they are all Democrats. This large addition to the ranks of the Democracy, through the passage of the Fifteenth Amendment, has given the members of that delectable party encouraging hopes of carrying the next election, and, consequently, the candidates for office are numerous.**

**THE DODGE REAPER AND MOWER.—Our friend JOE WENRICH, informs us that the firm of Wenrich, Stepp & Co., agents for the sale of the above-named machine, sold one hundred and seven of these valuable reapers this season, and that they could have disposed of more but that the manufacturers were unable to supply the demand. This really superior machine is rapidly growing into popular favor, and it is deserving of all the praise that can be bestowed upon it.**

**HEAVY DEALING.—The Bloomsburg *Columbian* says that A. T. Fowler, Treasurer of the Cook Robin Iron Works of Danville, and formerly Cashier of the First National Bank of that place, is a defaulter to a large amount, and has absconded. The liabilities of the Company are placed at from \$10,000 to \$30,000. Assets not known, but we understand that it is claimed that they will pay seventy-five per cent. of their indebtedness. No information has been received as to the whereabouts of Fowler.**

**RATTLESNAKE BITES.—The pest of our buckle-horn mountains is the rattlesnake, and as the berrying season is here we give place to the following method of curing the bite of that venomous reptile. The case is vouchered for by the N. Y. *Express*.**

**A Savannah man was recently bitten by a rattlesnake in the right forearm two inches from the wrist. The venom of this snake must have been strong, as the reptile was twenty-two years old according to his rattle. Immediately upon being bitten, the man was taken in hand by parties who had experience in the treatment of snake bites, and they applied tobacco poultices to the bites, and plied him freely with chioform and ardent spirit. This after the virus had rapidly spread up the arm and insensibility supervened.**

**The grain-growers of the West are already speculating in the benefits which they will derive from the war in Europe. As America is the granary of the world, the price of wheat for export must necessarily rise. Our farmers will consequently reap a golden harvest from the accidental conversion of the fertile and well-tilled fields of the Continent into the battle-ground of two great nations.**

**It is estimated that, on an average, at least one hundred bushels of buckwheat were taken off of Shademountain every day last week.**

**DON'T forget to attend the laying of the corner stone of the new Evangelical Church at Centreville next Sabbath.**

**ONE HUNDRED MEN, to whom good wages will be paid, are wanted to work on the Sunbury and Lewisburg Railroad. Apply to any of the subcontractors on the road.**

**WE understand that the collectors of State and County taxes in this country have been notified by the Commissioners to pay into the treasury the amount of their duplicates on or before the first of August next.**

**LAST Wednesday afternoon, Charles Ray, a young man working in Clemont's planing mill, in Sunbury, had the four fingers of his left hand completely cut off by coming in contact with one of the saws.**
